

SURFACE CLEANER & SANITISER + TREATMENT SYSTEM

CLEANER & SANITISER + TREATMENT FOR USE ON HARD SURFACES

CLEANER SURFACES, IMPROVED HYGIENE & LONG TERM ANTI-MICROBIAL PROTECTION

Organic & inorganic contaminants increase mould, fungi and bacteria growth on all surfaces, leading to poor hygiene.

To overcome these problems, use AeriGuard™ Surface Cleaner & Sanitiser and AeriGuard™ Bioactive Surface Treatment.

For best practice and optimal results* - pair with AeriGuard™ Bioactive Surface Treatment as below:

*Always refer to SDS & IFU Prior to product dilution & application

Step 1: Clean & Sanitise

Step 2: Treat & Protect

PRODUCT OVERVIEW

Step 1: AeriGuard™ Surface Cleaner & Sanitiser is designed to provide a simple clean & sanitise solution for hard surfaces including cool rooms, HVAC systems, drain pans, fans, refrigerators and other hard surfaces.

Step 2: AeriGuard™ Bioactive Surface Treatment provides long term residual protection against microbial growth & contamination for up to 12 months.

- HACCP certified
- US EPA registered (Treatment)
- Powerful & effective cleaning
- Broad spectrum anti-microbial activity
- Prolonged hygienic surfaces
- Cleans, protects & optimises

Product Code	Description	Dilution Rate
AG-SCS-1R	Surface Cleaner 1L Spray	Ready to Use
AG-SCS-5R	Surface Cleaner 5L	Ready to Use
AG-ST-A	Surface Treatment Aerosol 400g	Ready to Use
AG-ST-5	Surface Treatment 5L	Ready to Use

Product Code	Application Rate
AG-SCS-1R	As required RTU (spray-on, wipe & leave)
AG-SCS-5R	
AG-SCS-1R	
AG-SCS-5R	

SURFACE CLEANER & SANITISER + TREATMENT SYSTEM

CLEANER & SANITISER + TREATMENT FOR USE ON HARD SURFACES

FEATURES

- Non-acid, non-alkaline cleaning process
- Superior cleaning solution
- Compatible with all common cleaning processes
- Multiple modes of application
- No harsh chemicals

BENEFITS

- Saves time with quick and easy preparation
- Easy to use and safe in all work environments
- Can be used on all surfaces including seals
- Eliminates odour causing bacteria
- Complies with DA19 maintenance standard for best practice

AerisGuard™ cleaners use patented anti-microbial multi-enzyme technology, which is non-toxic and non-acidic to breakdown and digest the biofilm and other contaminants. This is easily removed using water (under pressure for larger scale units).

AerisGuard™ Treatment is then applied to create a biostatic protective coating on the surface. This provides up to 12 months' residual protection to control and prevent mould and odour-causing bacteria. Ideal as part of an annual maintenance program.
